

EXHIBITION OPPORTUNITY

Project Space Festival Berlin 2016

22.05.2016

PROJECT SPACE FESTIVAL BERLIN has announced an open call to project spaces based in Berlin to join its 2016 program. The festival aims to present a diverse program of interesting and inspiring spaces, providing a momentary slice of the city's independent scene. During the Festival, each participating space will host and organise one admission-free event, with one occurring on each day of August, totalling 30 days. The PROJECT SPACE FESTIVAL BERLIN encourages a very free and open format including outdoor performances, musical or culinary get-togethers, or any other unexpected gatherings conveying the light spirit of a typical August in Berlin. The project spaces included in the Festival will once again be selected by a jury, to be announced on the website.

Thanks to this year's support by City-Tax Berlin, the Festival is able to provide each participating project space with a supporting fee.

Deadline: 22 May 2016
